Complete this ONLY if you are interested in being considered for the 2024-25 Artist in Residence Cohort.

Which residency track are you applying for? *

"Embark" track is designed for early-career artists, including recent college or graduate school graduates. Artists finishing a graduate program who have this experience may apply in either track.

- Embark track (6 months)
- Explore track (1 year)

Which studio location are you applying for? *

If either location would work for you, feel free to check both boxes.

Your answer

Do you have funding secured or planned to compensate dancers/collaborators who may be working with you? If so, please describe. *

This is NOT a requirement of the program, and your response will not affect your chances of acceptance. However, we support efforts to compensate artists and your response, either yes or no, helps us have a better understanding of the funding landscape.

Your answer

Please provide a link to a choreography sample (work in progress or finished work) that gives us some sense of your work or process. If you don't have one, tell us why. *

Your answer

Please describe any conflicts or situations that might impact your ability to fully participate in the residency period (including the expectations of joining regular cohort meetings and informal check-ins with peers).

Your answer

Anything else we should know about you and your work?

Your answer

Please provide 2 references who are familiar with your recent choreographic work/process/practice/dreams and could recommend you in a compelling way for this opportunity.

Demographics and Submission

We strive to present the work of diverse artists from across NC. Your responses below help us tremendously in a few ways: 1. Help us see if there are gaps in the range of artists applying so that we can do a better job of reaching out to those artists. 2. Help us appropriately report the demographics of artists in our communities (see below). THANK YOU for helping us include and accurately identify as many artists as possible!

Artist demographics are often needed to complete demographic surveys required by our funders and/or program partners. Data will only be shared in the aggregate and will be anonymized to our funder/partner audiences. We acknowledge the challenges of collecting and using data, especially as it relates to our personal identities. Disclaimer: Funders have varying requirements for data collection, from the type of information needed (race, gender, sexual orientation, disability, age, etc.) as well as the format of data (provide whole numbers versus percentages; adhering to fixed categories based on the census versus flexibility to submit demographic data based on our own data collection). In these scenarios, we may recategorize your answers below to the best of our ability within any strict formatting guidelines provided by the funder, e.g., a funder may still use the term Hispanic, but you self-identify as Latinx, the Development team may adapt the categories accordingly. Adapted from Informed Consent Demographics Survey. Source Credit: Allison Celosia and Ever Galván, Californians for Justice Education Fund (2021).

I have read and agreed to the above policy. *

By agreeing to the policy below, you provide informed consent, so that we may report on your demographic data to our funders/partners. It is our intention to represent your identity safely to our funders/partners. If you select "no" below, we will be in touch for a more in-depth conversation.

Although race has no genetic or scientific basis, the concept of race is important and consequential. Please self-identify with whatever feels like your lived experience. If you are applying on behalf of a group, you may indicate the identity of group members by selecting all that apply. If you wish to skip this question, please choose "Prefer not to disclose."
